

Dear Parent/Carer,

We have assigned every pupil in the school a Nessy account to support their home learning during this time. To login, please visit play.nessy.com and sign in using your personalised log-in details.

Nessy is a fantastic online resource to support your child's spelling and reading. Although first created for children with dyslexia it is of benefit to every child from P1-P7. When you first login your child will be asked to complete both a reading and a spelling challenge. Please allow them to do this with as little support as possible as the programme will use this to gauge their starting level. From then on, your child should simply click on the bouncing box in the right hand corner of the screen, which will direct them to the next video or game they should play. Nessy works best with Firefox or Google Chrome.

If you have any difficulties with this programme please feel free to get in touch with a member of staff through Glow.

Thanks,

Mrs Denholm
